KEEP IN MIND

*Before you dive into Prague's life,
here are a few things you should be aware of...*

EXCHANGE

Unfortunately, the city centre is full of shady exchange offices with low rates and hidden fees. Always check the exchange rate online and check the banknotes you receive, just to be sure. **Never** exchange money on the street.

TAXI

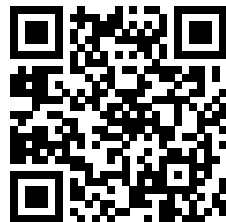

If you are in need of a taxi, call the numbers **14014** or **14015**. We recommend using UBER or BOLT. Stopping a taxi in the city centre is risky because of their high fares.

PICKPOCKETS

As in every big city, take care of your personal belongings. Most shops accept credit cards and ATM machines are on every corner.

PRO TIP

If you're planning on using public transport, we recommend downloading official app that allows you to buy tickets and keep track of them. Just type in your card details and off you go!

ATMs

You will see Euronet ATMs all over Prague. We do not recommend using them, as their rate is poor and they rip you off. Use bank ATMs instead, there are plenty of them all over the city.

PUBLIC TRANSPORT

Don't be afraid to use public transport! It's cheap, fast and reliable. However, Prague is a compact city, especially its centre, we recommend that you walk to truly experience its architecture and vibe.
